

The Landfill-Safe Plastics Report

RNG Plastics · True Sustainability

- A better world for your children & grandchildren •
- Fossil fuel plastics are fully renewable today! •
- Mechanical and chemical recycling has horribly backfired •

The Choice for a Clean, Healthy Future

A Healthier Future for Your Family Includes Plastics Made of Natural Gas

You can either embrace reality or continue down a path of abject deception. Fossil fuel plastics are made from natural gas and can be renewed!

If the alarm bells have not gone off, you are not willing to accept reality.

Natural gas plastics can be renewed forever – the system is already here!

The EPA began funding conversion of landfill waste into **RNG—Renewable Natural Gas** and renewable biogas (RNG feedstock) 20+ years ago at LMOP partnered landfills!

LMOP is the future of renewable plastics. It is clean, safe, and helps mitigate climate change!

All fossil fuel plastics can be renewable!

Make no mistake about it. After you leave this planet and your children and grandchildren take over – RNG will replace fossil fuel natural gas to manufacture their

Why Collecting, Sorting, Mechanical Recycling Is an Environmental Nightmare!

Firstly, it is a dirty, unhealthy bacteria- and disease-ridden process.

Secondly, it will never have properties to meet FDA food and health requirements without an enormous 8-10 fold price increase!

Chemical recycling may be worse

Exactly where will it be done? Near who's community? Where will the toxic waste byproducts go? What if the wind shifts? Who is going to pay for this? Where is all the excess propane going to go? Who is going to sort, collect, and ship all the contaminated plastics to get chemically recycled?????????

Recycling plastics is a comedy of errors

We kicked off plastic recycling over 30 years placing recycling bins at Raley's and Save Mart supermarkets in California. After putting them in thousands of grocery stores—very few remain today! Today, stores rarely

plastics.

**Reality is: RNG Plastics lead the way –
renewable for centuries to come!**

recycle plastic.

It got so bad the Attorney General in the state of California, Ron Bonta, demanded answers from plastic manufacturers re. false recycling claims.

**Bonta's Demands to Plastic
Manufacturers**
